

DGB 20 YEARS at WORK

- DGB has grown to an active group of 24 members (golf courses)
- We have a state of the art database and website
- DGB provides in the need for exchange of knowledge and sharing information, also on international basis such as study trips to England, Scotland, Germany, Denmark and Sweden and several times host for visits of international greenkeepers
- Frequent contacts by gatherings and several very active Whatsapp groups
- Several members are running trials supported by members of the DGB NGA NGF knowledge platform
- However: a greenkeeper is not a scientist and therefore DGB will provide support to the interested greenkeeper
